STORIES:

THE ANT AND THE DOVE

A dove saw an ant fell into a river. The ant was struggling in vain to reach the bank. In pity, the dove dropped a leaf close beside it. Clinging to the leaf, the ant floated safely to the shore. The dove saved the life of the ant. After a few days, the ant saw a man aiming an arrow towards the dove to hunt it. But just as he was about to release the arrow, the ant stung him on the foot. It made him miss his aim. Thus, the ant saved the life of the dove.

Moral: Kindness is Never Wasted.

THE HARE AND THE LION

In a dense forest, there lived a lion, who killed many animals everyday. One day all the animals came for a meeting with their ideas and they went to the lion. The animal said, "Please stop hunting". We will send you one animal everyday. The lion agreed happily. One animal was sent for his meal for everyday. One day it was the turn of a hare. The hare made a plan. He reached to the lion late. The lion angrily said, "Why are you late?" The hare said, "I saw another lion in the forest." The lion said show me. I will finish him right now. The hare took him to a well. The lion saw his own shadow in the water. Roaring! He jumped into the well and drowned.

Moral: Wisdom can win over might.

THE TWO FROGS

One day two frogs fell into a churn of milk. They swam round and round. They tried to hop out and escape. After some time, one of the frog said, "I can't swim any longer, I am completely tired. I am giving up." He gave up and was drowned. The other frog went on swimming to save itself. His movements churned the milk and turned it into butter. After sometime the frog climbed up on the pat of butter and hopped out of the churn.

Moral: God helps those who help themselves.

DEVELOPING SENSES-KNOWING BEYOND BOOKS

Activities to be played in the classroom for intellectual development (sense training) and reading readiness.

A) LISTENING

Take a familiar object e.g. a bunch of keys, without children seeing it. Rattle the keys and then ask children to recognise the sound. In this way many other things that produce distinct sounds may be used; a small bell, a big bell, etc.

B) TOUCH & SENSE THE STEREOGNOSIS BAG

Put some familiar objects in a cloth bag and close the bag. Be sure children do not see you putting the objects in the bag. Ask children to close their eyes, let them feel the bag nicely with their fingers and recognize the objects.

To start with just a small plastic ball may be used. Pencil, rubber, different vegetables like carrot, turnip, an apple or an orange can be used.

C) SMELL, FEEL & TOUCH

Introduce the children to a few things with a distinct smell e.g. rose, onion, soap, etc.

Cover one of the objects with a cloth, be sure the child does not see you covering the object - let the child smell and recognize the object.

Fruits like an apple or a banana may be covered and the child with the eyes closed or blind folded may touch and smell and recognize the object.

D) TASTE & FLAVOURS

After children are introduced to different tastes e.g. sweet, sour, bitter, hot (chilli), salty give the child one object (only one at a time) to taste and identify

E) PHYSICAL DEVELOPMENT

1. Make the children stand in a circle and pass the ball.
2. Children may sit down on a carpet and pass the ball.
3. Children will form two lines standing face to face and pass the ball across.

F) SING-O-MANIA

1. I wrote a letter to my mother on the way I dropped it.
2. Oranges and lemons sold for a penny

G) LITERARY LEARNING
